

Savings for your business, vital funding for our mission

So far, local business owners like you contributed over **\$202,000** through GratisGives™ to our community.

How it works

- 1 Team-up** with GratisGives, a local payment processor offering competitive payment processing rates.
- 2 Save** your business money on processing fees you already pay, and realize savings of potentially \$1,000s per month!
- 3 Choose** to donate a small portion of your savings to a select list of charities in our community.

You save money, and your community feels the collective support of the businesses that care enough to give a little.

The WIN-WIN

THE SAVING

Joy is a local dentist. She sees and treats patients every day. Her patients pay her for her services by credit card. Joy would like lower credit card fees; GratisGives helps lower credit card fees.

THE GIVING

With Joy now saving an extra **\$500 per month** in credit card fees, she decides to give a little. Through GratisGives she can give a small amount of her SAVINGS to a **participating nonprofit** she cares about.

Next step: call us

GratisGives helps fund local nonprofits while reducing merchant fees you already pay. Two good deeds that turn great together. Contact us.
